AUDITOR'S REPORT

---

Atkinson, N. H., March 2, 1936.

We have examined carefully the accounts of Selectmen, Tax Collector, Town Clerk, Treasurer, Trustees of Trust Funds, and Trustees of "Todd Poor Fund" for the year ending Jan. 31st 1936 and find them correctly cast with vouchers.

We would suggest that the Selectmen keep a supplementary book for Town Poor, Old Age Assistance and Soldiers Aid, thus having a complete record available for public inspection at all times.

We would also suggest that all permanent records be kept in ink.

J. HAROLD COLCORD  
HARLON C. DYKE

Auditors.

## LIBRARIAN'S REPORT

To the Trustees of Kimball Public Library:

The library has been opened each Monday from 12 to 5 and Friday from 12 to 1 o'clock in the afternoon during the school year, each Saturday from 2 to 5 in the afternoon, from 7 to 9 in the evening.

We received this year \$41. from State Aid, a generous gift of books from Mrs. Gardner Powers and wish to say these have been greatly appreciated.

The number of books given out during the year has been 2,168. We hope the circulation will still keep growing and that everyone will make use of our new library room.

Cash on hand .....	\$1.55

REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

To the School Board and the Citizens of Atkinson:

It is with pleasure that I present my annual report as Superintendent of Schools. Included in this report is the school organization for 1935 - 1936 and reports by the Music Supervisor and the School Nurse.

Again there has been no change in the teaching staff since my last report. I consider that we are indeed fortunate to be able to retain the services of our present teaching force.

There were 70 pupils enrolled last year in the elementary schools, which was just the same number enrolled the previous year. The attendance for all schools averaged 94.94% of the membership. The average for the state was 94.66%. Eight pupils graduated from the eighth grade and all eight of them entered high school.

The following list shows the names of the Atkinson pupils attending high schools, together with the name of the school attended and the grade of the pupil:

*Woodbury High School*

Edwin Nye Grade 11                      Lillian Wood Grade 10  
Jane Dobson Grade 9

November 11-15 was observed as National Education Week in our schools. In observance of this week invitations were extended to parents to visit the schools. The response was excellent.

A school paper—The Echo—has been published in five issues, by the pupils of the Grammar School. The Art Exhibition held last May is also worthy of special mention. The achievement of the pupils was outstanding.

The school club offers opportunity for fine educational opportunities in school and encourages worthwhile use of leisure time outside of school. Among the clubs organized have been Current Event, Sewing, Book, Stamp, and Literary.

The number of one room schools has been steadily decreasing in New Hampshire. This has been brought about by the desire of towns to establish larger and centralized schools as soon as they could afford to build the necessary buildings. We look forward to the time when Atkinson may find it possible to replace its one room buildings by a central school.

Last Spring a new method of teaching penmanship was introduced. Letter forms, slant, and arm movement are about the same as in the former method. The feature of the new plan is that instruction becomes individual instead of group. The practice work is designed to remedy more effectively the defects in the penmanship of the individual. After a word, sentence, or paragraph has been copied from the model, it is analyzed by the teacher for defects. Then each child works to improve his writing by overcoming the difficulty. There are awards in the form of badges for those children that reach the standards set up for each grade.

Good teachers are the first requirements for effective work in education, but regardless of the experience and standards of the teaching staff, close and efficient supervision is required to secure satisfactory results. In supervision, the chief function is to further the child's learning and growth. More recent thinking in the field of education has been directed toward the bettering of conditions which affect learning. Visiting and conferring with teachers is important; but this is not all. The selection of subject matter supplies and equipment, the scientific study of teaching problems, the development and maintenance of professional spirit and morale are very essential.

The policy of the School Board in liberally supplying equipment, supplies and text books is commendable. The materials of instruction are thus kept up to date.

There is good progress in the work of all our schools. The fundamentals are being adequately stressed. To aid in the direction of instruction in the fundamentals standardized tests are given each year. Thus we are able to determine the standing of each class and individual as compared with others in the same grade elsewhere. These tests have another valuable function—to determine the points of weakness in each pupil's preparation, and thus to guide the teachers in providing drill where most needed. Many progressive tendencies prevail. The pupils are developing responsibility, co-operation, service and other

character points through room activities. Individual differences are cared for. Creative experiences in art, dramatics, music, English expression and other fields are fostered.

Much space might be taken here in stating the progress the schools are making. An occasional visit of an hour or more and a conference with the teacher at the end of the day will be far more satisfactory to parents and to others who are interested than to read about school activities. Atkinson pupils are at work at least 175 days in the year, and both Teachers and Superintendent are only too glad for the townspeople to get better acquainted first hand with the things they are doing.

In conclusion, I wish again to express my appreciation to the teachers, and pupils, to the School Board and to the parents and patrons of our schools for the loyalty and co-operation which has contributed so much to the children's progress.

Respectfully submitted,

WILLIAM J. NELSON

REPORT OF SUPERVISOR OF MUSIC

---

To the Superintendent of Schools:

I herewith present my annual report as Supervisor of Music in the Atkinson Schools.

The text books in use at the Sawyer, Depot, and Primary Grades at the Center are from the New Educational Music Course by Ginn and Company. In the intermediate and grammar grades, Center School the boys and girls are enjoying song material from "The Music Hour" a new, attractive book published by Silver, Burdett and Company.

In the annual reports I have more than once given the aims of the work in detail; this year I will give a quotation from a new outline of the "Music Hour Series", we seek "to develop power and enthusiasm in participation and enjoyment in listening".

"The Green Cheese" a Lorenz operetta in three acts was presented by the pupils of the Academy, April fifth. The boys and girls did commendable work and the affair was a success financially.

In looking back over the year's work I find in every case cooperation and pleasant classroom associations. In closing I wish to express my thanks to you and the teachers for the interest and support given to me.

Respectfully submitted,

EVA W. THOMPSON.
